Notes

SMM	Rationale
SafeEntry/TraceTogether	Required for events with capacities >500 pax to ascertain vaccination status as any event >500 pax can only be open to the fully vaccinated
MARS Check-In	Required to track capacity at events not exceeding 500 pax
VDS	Vaccination-Differentiated SMMs (VDS) is still required for congregational worship services and other mask-on religious activities with more than 500 persons at any one time. TraceTogether will be used to verify VDS.
Unvacc (Unvaccinated)	Open to unvaccinated parishioners (However, please do check the capacities before attending in case there may be any changes on special occasions.)
